MEMORANDUM FOR: Director of Training
SUMJECT: Request for External Training in Photogrammetry for Mr.
1. This memorandum contains a request for approval of an external training program along with justification and applicant background information. The request is contained in paragraph 6.
2. The science of extracting dimensional data from photography is the responsibility of the photogrammetrist. The Center has had difficulty in recruiting qualified professional personnel for the 50 + photogrammetrist positions in MPIC. This is primarily due to the limited number of available photogrammetrists and to the stiff competitive recruitment activities within this field. To overcome this difficulty the Center has relied heavily upon an extensive photogrammetric development program including full time graduate training for selected personnel. This external training has proven particularly successful in developing photogrammetrists to perform this important phase of the Center's work. To date six personnel have received such training.
a GSS-11 photogrammetrist, who graduated in June 1965 from the University of Texas with a B.S. in Civil Engineering degree. He came to work for the Center in August of the same year. has made steady progress and for the past four years has been assigned to a highly specialized photogrammetric component where he has performed many unique and challenging mensuration tasks. He possesses a great deal of initiative and resourcefulness and has received considerable recognition for his generation of ideas, including several suggestion awards and publication of his report on an unique mensuration technique in Studies In Intelligence. (The Quest for Mao Tse tung, Vol. 13 No. 2 Spring 1969) It is felt that this full time academic training program will round out his development in becoming a senior photogrammetrist. is 35 years of age, married, has three children and served two years active duty in the Davy, 1355 57.

All colleges, schools, and divisions except the National Law Center, the School of Engineering and Applied Science, and the School of Medicine.

First-group courses.—Courses numbered from 1 to 100 are planned for students in the freshman and sophomore years. With the approval of the adviser and the dean, they may also be taken by juniors and seniors. In certain instances, they may be taken by graduate students to make up undergraduate deficiencies or as prerequisite to advanced courses, but they may not be taken for graduate credit.

Second-group courses—Courses numbered from 101 to 200 are planned for students in the junior and senior years. They may be taken for graduate credit only upon the approval of the dean and the instructor at the time of registration. Such approval is granted only with the provision that students must complete additional work in order to receive graduate credit.

Third-group courses.—Courses numbered from 201 to 300 (in the Graduate School of Arts and Sciences, the School of Government and Business Administration, and the School of Public and International Affairs); courses numbered 201 to 400 (in the School of Education) are planned primarily for graduate students. They are open, with approval of tinstructor, to qualified seniors; they are not open to other undergraduates.

Fourth-group courses.—Courses numbered 301 to 400 in the Graduate School of Arts and Sciences are limited to graduate students; but they are primarily for doctoral candidates. In the School of Education fourth-group courses, numbered 401 to 500, are limited to graduate students with Master's degrees from accredited institutions.

The National Law Center

Before June 1, 1968: Courses numbered from 101 to 200 are required courses for first-year students; courses numbered from 201 to 300 are required and elective courses for the Bachelor of Laws or Juris Doctor curriculum; courses numbered from 301 to 400 are advanced courses. LL.B. or J.D. candidates are permitted to take some 301-400 courses; Master's candidates are permitted to take some 201-300 courses.

After June 1, 1968: Courses numbered from 201 to 300 are required courses for Juris Doctor candidates; courses numbered from 301 to 400 are normally taken by second- and third-year students in the Juris Doctor curriculum; courses numbered from 401 to 600 are generally more advanced. Second-year Juris Doctor candidates are permitted to take courses numbered above 400 only with the permission of the dean. Third-year Juris Doctor candidates are encouraged to take one course numbered above 400; they may take more than one with the dean's permission. Master's candidates are permitted to take some courses numbered below 401

School of Engineering and Applied Science

Courses numbered from 1 to 200 are planned for undergraduate credit; those numbered above 200 are planned for graduate credit. Certain courses numbered from 1 to 200 may be taken for graduate credit when arrangements are approved in advance by the instructor and the dean; courses numbered above 200 may in certain instances be taken by qualified undergraduates.

School of Medicine

Courses in the basic science departments are numbered from 201 to 400. Courses in the clinical departments are numbered from 301 to 400.
